

PRO 15

Portable Banknote Counter

► FUNCTIONS AND ADVANTAGES

The PRO 15 is easy in use, requiring only two buttons to control all operation modes. The bright LED display shows the counting results.

The PRO 15 banknote counter accurately counts different currencies from various countries around the world.

High counting speed – 900 notes per minute.

The summation function allows you to count the total number of banknotes from several stacks.

The PRO 15 banknote counter is compact and convenient and does not occupy a lot of space.

There are two different size clamps provided with the kit to prevent banknotes from scattering during the counting.

The kit contains a belt mounted leather case.

The PRO 15 can be powered by a cable or 4 AA batteries.

The PRO 15 is able to count not only banknotes, but also different paper documents up to A5 in size (depending on density).

"Low battery" indicator is placed on the body of the device.

Anti-skid elements make the device more stable during stationary use.
