RCH

Image at real size

The solution that save money.

ONDA, the new cash register by RCH, uses a single roll of paper to print the till receipt.

A Multimedia Card replaces the thousands of rolls of paper which comprise the electronic journal. Replacing the roll is quick and easy, thanks to the new Easyloading system.

Equipped with a fast and silent printer, it issues clear, easy to read receipts.

Small and attractive, Onda fits in perfectly to every environment.

Hardware features

Display :

- back light LCD with two lines, each with 16 10-mm alphanumeric characters (Operator side);
- back light LCD with one line with 16 15-mm alphanumeric characters (Customer side).

Keyboard : standard with 38 configurable keys (max 45), waterproof.

Printer : high-quality thermal graphics

Roll : width 57,5 mm, diameter 50 mm.

Printing speed : 80 mm/sec.

Printing quality : 8 dot/mm.

Audit journal : electronic on RCH format Multimedia Card

Sensors : end of roll (zero waste), head temperatures, printer cover open.

Interface :

- 1 RS 232 serial with RJ45 adapter for connection to PC and barcode reader;
- 1 RJ11 adapter for cash drawer connection, 12V.

Cabinet:

Compact with dimensions 346 x 112 x 222 mm, equipped with compartment for disguising wiring, battery compartment, additional receipt slot cover for outdoor use (optional).

Power supply :

External power supply, OUT 12Vdc /36W, car power cable (optional) or plug-in battery pack (external) for use outdoors.
